

Flexibility and Support.

Features

Why Choose Control™?

If you want to maintain oversight of your benefit plans but outsource system configuration and data exchange, then Benelogic Control™ is the perfect solution.

You get the flexibility to manage a wide range of benefit plans, products, eligibility, and business rules but none of the headache of the dealing with the back end transactions.

Benelogic Control™ gives you an experienced resource team to execute on your company's needs without having to hire and manage them yourself. Our vast experience and network of carrier relationships ensure your benefit plan functions smoothly, from data entry to invoice.

- Customized System Configuration
- Full Service Project Management
- Dedicated Ongoing Client Service Support
- Year-Round Access
- Online Life Event Change Management
- Secure Data Exchange with Carriers and Vendors
- Customized Business Rules
- Import/Export System Integration
- Robust Reporting Capabilities
- On Demand Adhoc Reporting
- A La Carte Service Enhancements
